

FREE UP YOUR BUSINESS CASH FLOW WITH OUR LEASING PROGRAM

One easy weekly payment covers:

- ✓ Autoclave lease
- ✓ 5 year warranty
- ✓ 5 annual validations
- ✓ Service & parts as required

Running a clinical practice is very complex: staff, equipment, premises and more. Managing your cashflow to ensure your business thrives is a key element of your success - but what about expensive outlays on essential equipment?

We're changing the game: lease your autoclave from ProMedCo, and we will deliver the latest designed product to your door, backed by a five year warranty.

Better still, all your validations and servicing are covered for that warranty period, meaning absolutely no more to outlay. Ensure the smooth running of your business with ProMedCo's leasing program.

Outstanding Product

ProMedCo guarantees all our autoclaves are compliant with national and state regulations.

We are so confident in our quality products, that we offer an **unprecedented five year warranty**, and include all required validations and servicing during that period.

Your business is our priority.

Business-Approved

We know managing your cashflow is essential to your practice's success. That's why we offer a simple weekly payment, that covers both your state-of-the-art autoclave, as well as validation and servicing for the five year warranty period.

No downtime, no delays for your business.

Our Expertise

Our validation and servicing team have 25+ years servicing autoclaves for practices like yours. We will visit your practice at least five times under the warranty for the validation.

We will provide any servicing required during the five year program. Should your machine require any further repairs in that time, we offer a free loan autoclave at no additional cost.

Assurance and reliability for your business.

Options to suit your business

At the end of the five year period, you can choose to upgrade to the newest equipment or purchase your existing leased equipment at a nominal fee.

This allows you to decide what's best for your business and ensure you have access to the latest technology and equipment.

Keep your business running smoothly.
